

Beech Curriculum - Term 3

We are Geographers:

Unit
1

How is Canada similar to the UK?

During this geography unit, we will be learning about the similarities and differences between Canada with the UK. We will be writing a travel brochure using commas in lists, questions, statements and exclamations.

We are Scientists:

Unit
2

What do plants need to survive?

We will be working as scientists to investigate what plants need to survive and learning about the different parts of a plant. We will be writing a leaflet using subordinating conjunctions.

We are Historians:

Unit
3

Who were the Vikings and what did they do?

We've learnt about the Anglo-Saxons, now time to learn about the Vikings. We will learn about where they came from and their impact on Britain. We will be writing an eyewitness report using a variety of personal pronouns to prevent repetition.

Year 2 - Maths

Year 2 will be starting term 3 by learning about money. They will count money in pence and pounds as well as calculating with money and solving two-step problems.

They will then learn about multiplication and division. They will find equal groups and solve multiplication sentences.

Year 3 - Maths

Our year 3 mathematicians will start by learning how to multiply a 2 digit and 1 digit number.

We will then be learning about measuring in millimetres and centimetres and finding the perimeter of shapes.

Keep up with the good work on TTRS.

Key Events

Year 2 and Year 3 - PE with kits on Thursdays

Year 2 - PE with trainers on Fridays

Year 3 - Swimming kits on Fridays

Home learning due in - Tuesdays

Home learning given - Thursdays

Together, we learn, grow and flourish
