

Hazel Curriculum - Term 3

We are Scientists: **Unit 1**

What are everyday materials and their properties?

We will identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, cardboard, glass, rock and paper for particular uses. We will further investigate properties like waterproof, transparent, and magnetic by conducting simple tests. We will finish the unit by writing a report based on our observations.

We are Geographers: **Unit 4**

How can we use maps and globes to explore and understand the world around us?

We will learn to identify the UK, continents, and oceans on a world map, building our global awareness. Using simple maps and keys, we will explore how symbols are used to represent real-world features and practise creating our own maps with basic keys. Through examining aerial photos, we will develop our spatial awareness and understand how different perspectives help us view and interpret landscapes.

Key Events

PE will be on Wednesday & Friday

PE kit only on Wednesday

Reading Books will be changed on Tuesday

Homework due on Thursday

We are Designers: **Unit 2**

How can I eat a healthy and varied diet?

We will explore the importance of balanced nutrition and learn about different food groups. We will practise basic cooking skills, such as mixing and measuring, as we make our own healthy cookies. To combine literacy with their practical work, the children will write a cookie recipe, using adverbs to enhance their instructions. Our unit lessons will encourage healthy habits while developing practical and language skills in a fun and creative way.

Unit 5

We are Theologians and Sociologists:

Who is Jewish and what do they believe?

We will learn about how Jewish people celebrate Mezuzah and Shabbat and remember God in different ways.

Together, we learn, grow and flourish

We are Authors: **Unit 3**

How do authors use questions and exclamations to create excitement in their writing?

We will be enjoying the book 'Ten Delicious Teachers'. We will investigate how the author uses questions and exclamations to grab attention, build suspense, and make the story more exciting. We will combine these to write a new story and make our writing lively while keeping readers interested in what will happen next.

We are Mathematicians:

Place Value within 20

Count within 20

Number line to 20

Compare and order numbers to 20

Addition & Subtraction within 20

Number bonds to 20

Doubles
